

Installing the Microsoft Windows operating system using IBM ServerGuide

Prerequisites:

1. Target system. Make sure that the target system is supported by ServerGuide. You can find target servers that are supported by ServerGuide are listed at the following site:

<http://www-947.ibm.com/support/entry/portal/docdisplay?Indocid=SERV-GUIDE>

2. The Microsoft Windows Operating System Redistribution CD-ROM/DVD.

Steps:

1. Download ServerGuide ISO from the following location:
<http://www-947.ibm.com/support/entry/portal/docdisplay?Indocid=SERV-GUIDE>
2. Create CD-ROMs or DVDs from the ServerGuide ISO image.
3. Attach an optical drive to the target system node through the USB connector and insert the first ServerGuide CD-ROM/DVD.
4. Boot the target system from the first Microsoft Windows CD-ROM.
5. Follow the steps in the ServerGuide installation wizard to complete the installation of Microsoft Windows.
